

For those who go the extra mile

COLLECTION 2022/23
WORK FOOTWEAR FOR HOTELS, RESTAURANTS,
CATERING, CANTEENS AND CAFÉS

Keeps you going. All day long

Some people just go a little further for others. From the hardworking chef in the kitchen to the busy waiting staff in the restaurant or café. They require footwear that is not just suitable and approved* for work, but also feels good. Even after a long, busy shift.

Sika Footwear offers a wide selection of work footwear for hotels, restaurants, canteens and catering, developed in collaboration with users and designed to provide maximum comfort and safety in the workplace.

Over the next pages, we have collected the best products for you and your colleagues. If you want to know more, simply scan the QR code by each series to get the technical details, relevant approvals and more.

Happy reading!

SIKA
SNEAKER

Sneakers that work for you

You may not see it at first glance. But there is a real work shoe hiding behind the sneaker design. A shoe that delivers all the comfort and functionality you can expect from professional footwear. Designed and developed for those who work in the kitchen, hotel and restaurant industry.

3

good reasons to choose Sika Sneaker

Stylish sneaker design
that still looks good after work.

Unique slip resistant properties that
minimise the risk of falling.

Superior comfort that increases
job satisfaction.

The best of two worlds

Whether you work in a kitchen, café or restaurant, you walk and stand far more than most. Things move fast, and the environment places great demands on both you and your footwear. But that does not mean you have to compromise on your personal style.

Sika Sneaker combines the best of both worlds. You get a lightweight, flexible and breathable sneaker that keeps your feet comfortable until the end of the day. But at the same time, you get a durable, safe and approved work shoe that provides good stability and a superb grip on slippery floors, so you can reduce the risk of twisting and slipping accidents.

So it does not have to be 'either or'. With Sika Sneaker, you get design, comfort and function, all in the same shoe. Choose from a range of stylish designs and find just the shoe that suits you and your job.

Function and design

With Sika Sneaker, you get comfort and function. All in a stylish design that also looks good after work.

Strong shock absorption

The shock absorption in both the outsole and inlay sole acts as an effective cushion and reduces the strain on joints, feet, legs and back, making your working day more comfortable.

Top-of-class slip resistance

Many work-related injuries are due to slipping or falling. With the outsole pattern and materials, Sika Sneaker gives you an extra good grip on wet and slippery surfaces.

Low weight

The Sika Sneaker series is made of strong but lightweight materials to keep the weight down. Both Life and Comfit weigh less than classic running shoes.

Good breathability

The lining and uppers of the shoes are in breathable materials, so heat and moisture from the feet can escape. This gives a good inner climate in the shoes.

High stability

The outsole ensures stability and minimises the risk of twisting your foot when you are in a hurry.

All Sika Sneaker models are PVC free and ESD approved.

SIKA
BUBBLE

Work shoes you want to wear

SIKA BUBBLE is for those who walk a lot and stand a lot at work. With its stylish design, SIKA BUBBLE blurs the line between work footwear and sneakers – without compromising on comfort or safety. Finally, a shoe you want to wear. All day long.

50018 / LEAP

Super comfort. Stylish design.

Lightweight and breathable shoes that are easy to hop into – thanks to the smart elastic band over the instep. The upper is made of breathable seamless knit, while the outsole is shock absorbing from heel to toe, reducing the risk of knee, hip and back injuries. The shoes also have good slip resistance, so you stand firm on slippery surfaces. The inlay sole can be washed at 40 °C. The shoes are PVC-free.

50018 / LEAP

50018 / LEAP

SIKA
BUBBLE

Good style on the floor

Whether you are working with guests or in the kitchen, SIKA BUBBLE is an excellent footwear choice. The design is stylish, and the slip resistant outsole reduces the risk of both injuries and dropped plates. SIKA BUBBLE lets your feet breathe and protects your joints so you can stay on your feet in comfort until the very last guest leaves.

The right shoe for the job

SIKA BUBBLE is available in different materials, designs and colours, so you can choose the right model to suit you and your job. If you are often in kitchens, the Step model in water resistant microfiber is a good choice. If you want extra air for your feet, try the Move model in a breathable textile. Whichever model you choose, you will get superb shock absorption thanks to the air bubbles in the outsole.

SIKA
MOTION

More air for your feet

Comfortable and breathable footwear is essential when you are on your feet all day. SIKA MOTION is a series of work sandals that provide all the support, shock absorption and air needed to keep your feet happy until closing time.

Lightweight, soft and flexible

SIKA MOTION is a lightweight, soft and flexible sandal. The detachable heel strap and many adjustment options provide a perfect fit, while the padded footbed follows your foot and contributes to the excellent comfort. The outsole is slip resistant, so you can stand firmly on slippery surfaces.

SIKA
FUNCTION

Made to stand firm

SIKA FUNCTION is a step up for safety. Even when you are rushing or if the floor is wet. The shoes are designed with slip resistance in mind and has been tested in professional kitchen environments, where a good footing can make the difference between a great evening and a really bad one.

Comfortable work shoes developed for hard, wet and slippery surfaces. The sole pattern directs water away and ensures maximum grip on surfaces, while the shock absorption in both the outsole and inlay sole prevents sore feet. The upper is made of water resistant but breathable microfiber. Can be washed at 40 °C.

SIKA
HIGHLINE

Comfort. Safety. Durability

When it comes to comfort, safety and durability, SIKA HIGHLINE is in a class of its own. The series has a toe cap, so your toes are well protected if you drop something heavy. The slip resistant outsole ensures a solid footing on slippery surfaces. The upper is made of breathable, durable and water resistant Permair® leather, and the inlay sole is both extra soft and washable. SIKA HIGHLINE is hygienic, easy-to-clean, ESD approved and PVC-free.

ACCESSORIES

What do you give the shoe that has everything?

Ultimate Footfit are arch supporting inlay soles that provide optimal comfort for feet with low, medium or high arches. The sole stabilises the foot and provides additional support around the arch and heel. Made of soft, shock absorbing and breathable EVA/PU foam, and moulded with durable polyester around the sole for optimal durability. A 3 mm layer of Poron has been inserted beneath the heel for exceptional shock absorption. The inlay sole is antistatic and ESD approved. Can be cut to size – use the existing inlay sole as a template for optimal fit.

151 / SIKa ULTIMATE FOOTFIT - LOW

152 / SIKa ULTIMATE FOOTFIT - MID

153 / SIKa ULTIMATE FOOTFIT - HIGH

Sika Footwear's accessories programme contributes to an even more comfortable working day for you – for example with shock absorbing inlay soles and sweat absorbing socks. In addition, we offer various laces and care products to help keep footwear in top condition for a long time.
