TR gel pad in the heel for exceptional shock absorption and cushioning. Retains its shape and effectiveness over time.

SECURE GRIP

Small grooves lead liquids away, creating a good grip on the surface.

SOLE PATTERN

The coarse hexagonal sole pattern has a large contact surface and creates friction in all directions, minimising the risk of slipping. An optimum sole pattern for dirty, wet and slippery floors.

**SELF CLEANING**

Rounded, wide grooves create a self-cleaning effect that prevents debris from getting stuck.

LADDER GRIP

Ensures a good grip on ladders and edges

**NANOTOE™**
